TO: LEGAL COUNSEL

We are sending you herewith the following items:

Editorial - "Smoke and Cancer" - TIME Magazine, May 21, 1956 and News Release - "1 in 5 Cancers Attack Non-smoking Britons" - Daily NEWS, May 8, 1956 - To be Placed in Volume V, Air Pollution, Page 38

Editorial - "The Origin of Cancer" - G P, Vol. 13, No. 5, 72-73, May 1956 - To be Placed in Volume V, Cancer Theories, Page 30

Kirchoff, Helen and Rigdon, R. H.: "Smoking Habits of 21,612 Individuals in Texas" - Jour. Nat. Cancer Inst., Vol. 16, No. 5, 1287-1304, April 1956 - To be Placed in Volume VII, Statistical Analysis, as Pages 37 thru 54

We would call your particular attention to the report on the smoking habits of individuals in Texas, which is included in the form of a reprint so that your information will be complete. While this report is primarily concerned with hospital patients, please note that among this group there is roughly a 70 per cent total of smokers in the age range which comprises the Hammond-Horn study.
